Tuesday, 23 September 2008

The Ramada Hong Kong Hotel was praised as the most popular choice for Hong Kong bookers through Wotif.com over the past twelve months, taking top spot at the annual Wotif Group Customer Preferred Choice Awards.

Wotif Group distributed the awards to the hotels which attracted the most sales through booking site Wotif.com over the past 12 months.

Wotif Group's Executive General Manager for Asia, Jirapa Eawsakul said, "Wotif.com's Hong Kong sales have healthily increased for the past few years and I'm especially pleased to celebrate these exceptional results with our hotel partners for the first time as Wotif Group, following the merger of Wotif.com and Asia Web Direct.

"Going forward, through our group, Hong Kong Hotels can also take advantage of popular booking portals Latestays.com and Smartstays.com to access an even wider range of travelers. This will allow our hotels the opportunity to achieve even better results next year and make the top performer awards an even more celebrated accolade," she added.
